

The Etz Chaim Project:

4. The Role of Team Leader

- Liaising and discussing logistical arrangements with the main contact at your host community, i.e. arrangements for travel, accommodation and food.
- Liaising with the community to devise and plan the best possible programme for their members during their visit. This will involve discussing what the community would like assistance with over the Shabbat or Chag visit, as well as taking initiative and suggesting ideas on how your team can enhance the whole experience.
- Lead your team with enthusiasm and bring energy and Simcha to the community!
