

The Etz Chaim Project:

2. How to arrange a visit

In the first instance, any interested community should complete an **Expression of Interest** form to provide CCE with an insight into the needs and character of their congregation, as well as an idea of how they would ideally expect the Etz Chaim madrichim to contribute to their event or programme.

Once this has been completed, CCE will be in touch with its partner organisations to assemble an appropriate Etz Chaim team. Following this, the Team Leader of your Etz Chaim group will be in touch with your community to discuss logistical arrangements and programming ideas directly.
